

ACA HOUSE

SINGLE-FAMILY RESIDENCE

TYPE: Architectural Design

YEAR: 2022

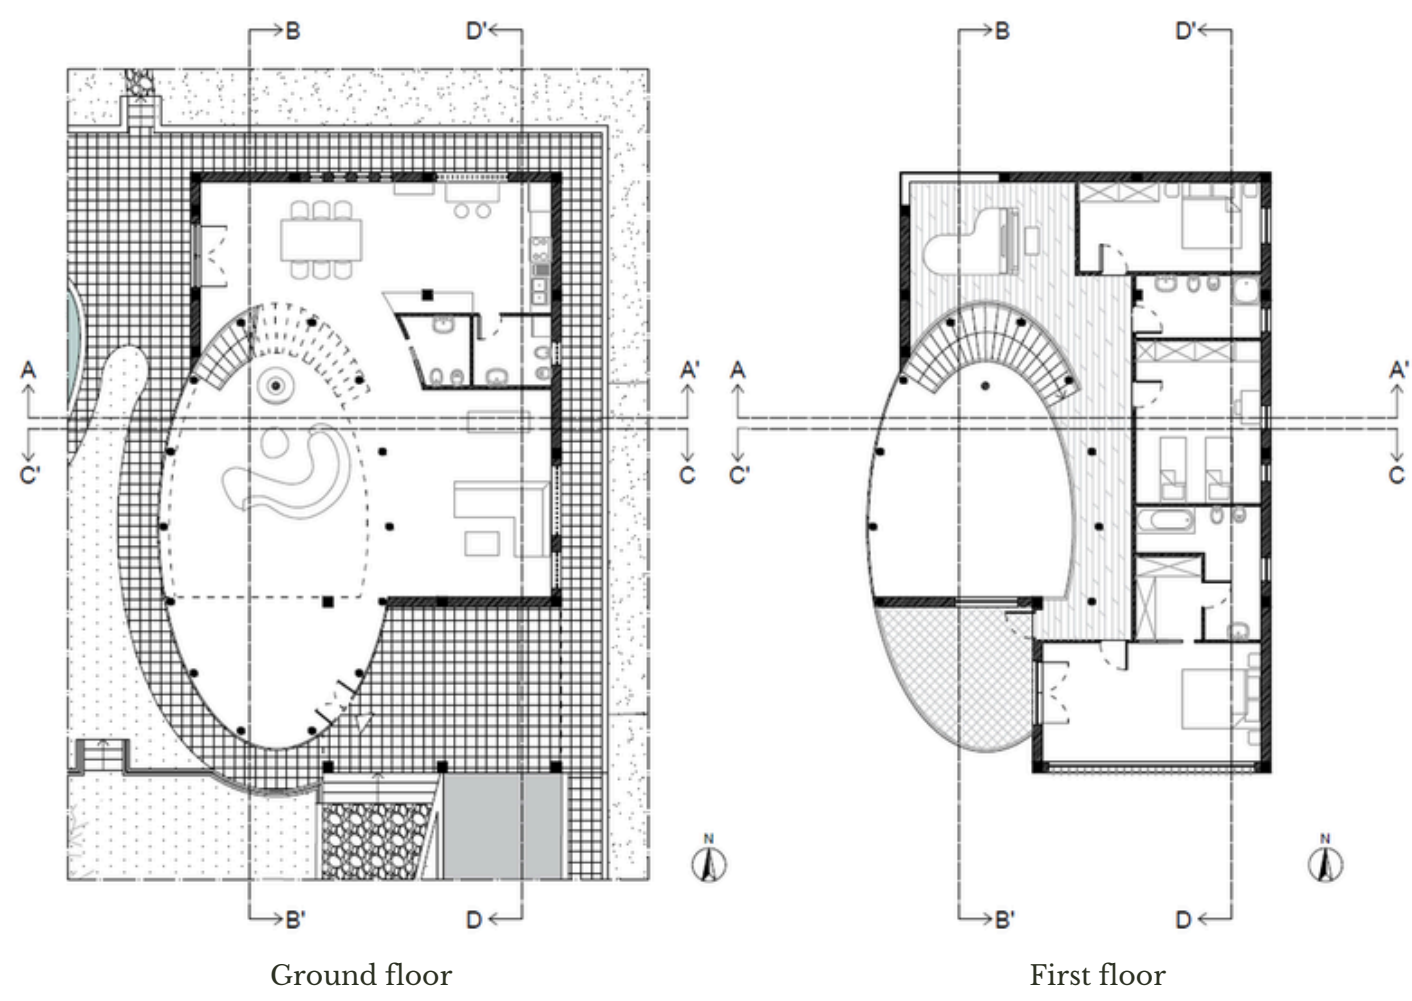

TEAM: Andrea Cutroni, Cristian Tolu & Alessio De Luca

FACULTY: Claudio Greco

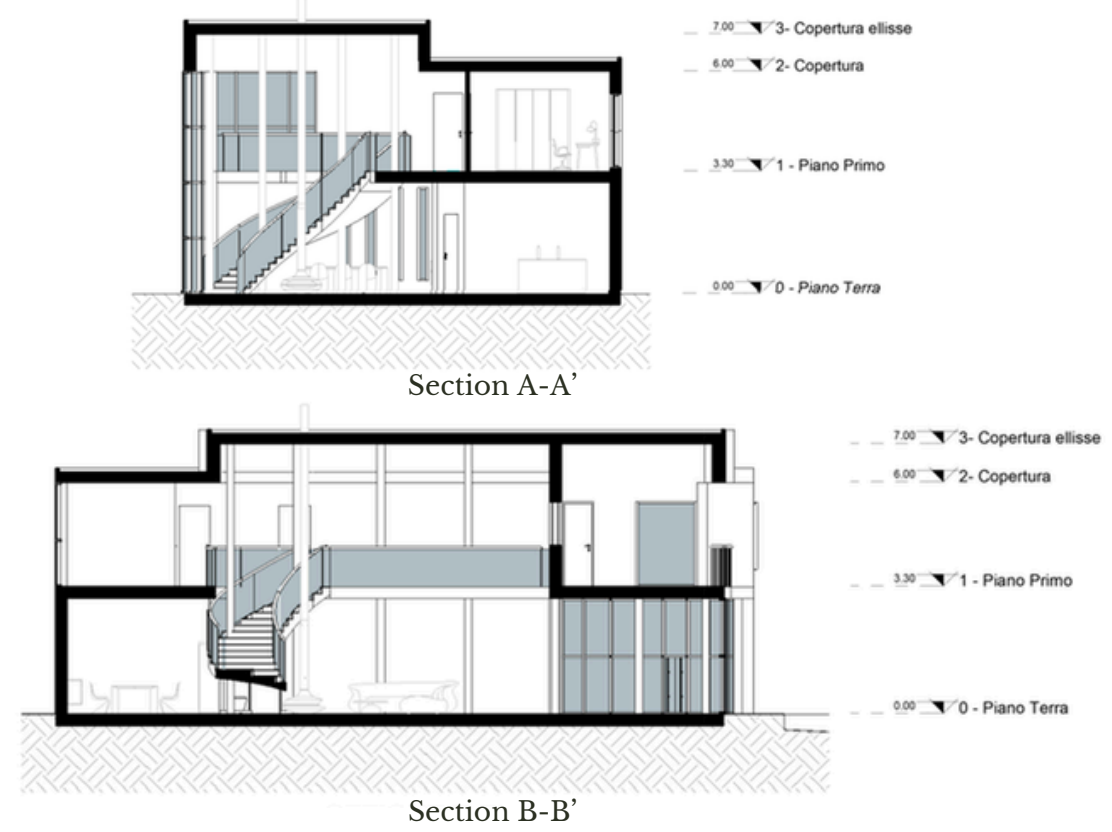

CONTEXT: Academic course
“Architectural design”

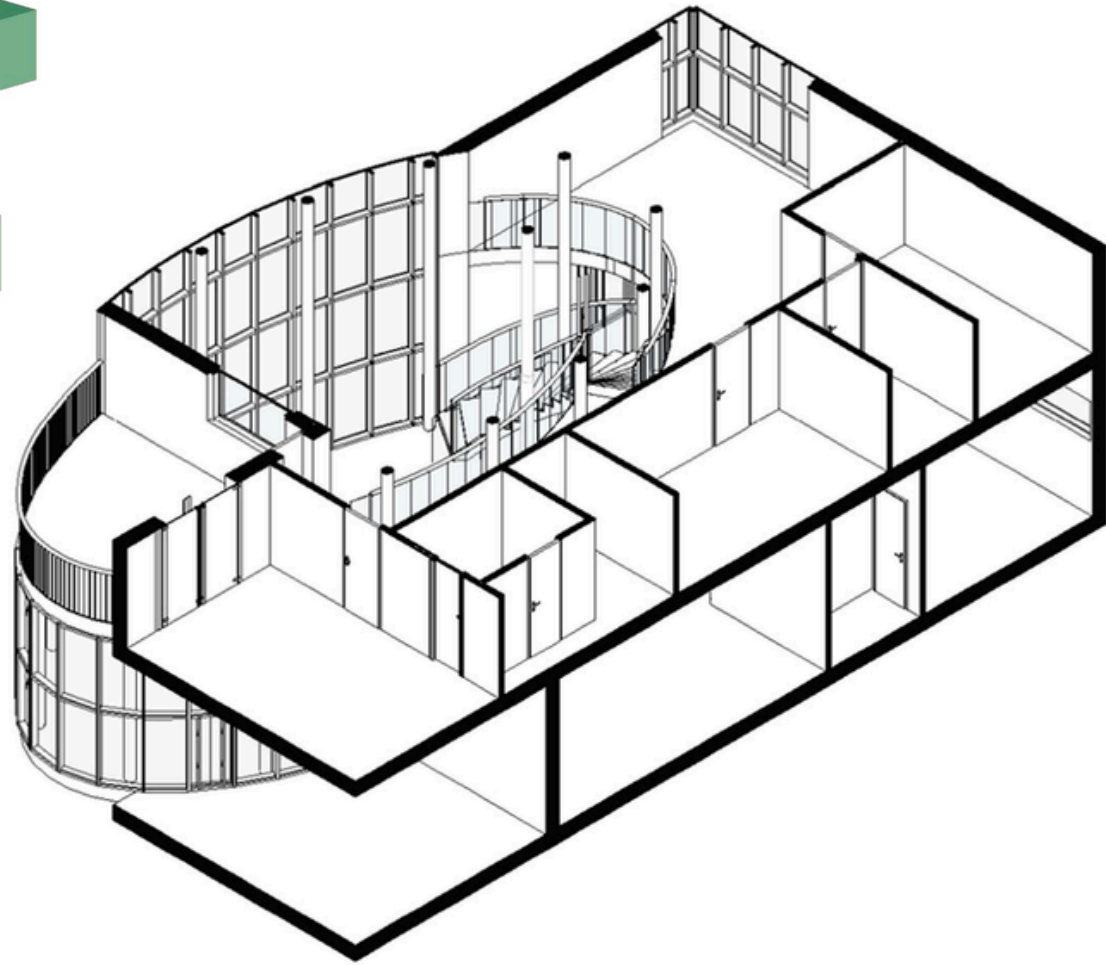

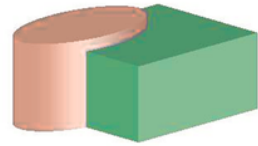

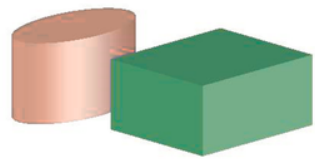

The project involves the architectural design of a single-family house on two floors, inspired by Richard Meier’s Shamberg House. The design is based on the intersection of the extrusion of an ellipse and a rectangle. The elliptical shape features a large glass façade. The project was designed using AutoCAD, Revit and Enscape.
